

MEZZANO WALL

LED light with dimmer

With a minimalist design but a strong stainless steel construction, Mezzano is in tune with avant-garde appliances where clear and architectural lines take precedence.

Mezzano has a powerful 600 CFM blower, LED dimmable, stainless steel microhole filters and high-tech multi-function touch controls that deliver convenience and safety.

Mezzano was designed for standard ducted installation, but with also can be installed using the Recirculating Kit, available as an accessory.

Optional Long Chimney Extension
CODE: KIT02785 / (30", 36")

AMBIENT LIGHT

Elica studies on hood lighting leaves no stone unturned. Here we have thought about products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is unique, and represents one extraordinary point of strength for us.

LED LIGHT

LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

HUSH SYSTEM

An exclusive sound deadening technology that effectively reduces sound levels by over 35%, compared to typical range hoods.

DIM-LIGHT

The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

TOP PERFORMANCE

Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. With a noise level between 60-65 db(A) at maximum speed (reference point varies based on the hood category).

CFM REDUCTION

CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the installer to reduce the maximum blower CFM, to meet local code requirements.
