ELICA'S EXCLUSIVE PLUS FEATURES

When the view out of your kitchen window is too spectacular to disrupt it with a large range hood, Elica's SIENA is the perfect solution. Siena literally installs into the ceiling and is discreetly flush mounted, which allows the cabinetry and outdoors to take center stage. However, when it's time to cook, Siena will easily do the job.

SIENA has a powerful 600 CFM and in-line blower, (sold separately) which is mounted in the attic for added silence and peacefulness. The 43" x 27" size provides excellent capture area, and in addition Perimeter Aspiration Technology has been included increasing suction by 35%, making SIENA a highly effective hood despite its out-of-sight location.

SIENA's bright LED lighting and 4 speed blower are conveniently operated by an ergonomic remote control.

SPECIFICATIONS

	43" UNIT
Model:	ESNX43S2 (Requires in line blower ESNBLK26 sold separately)
Dimensions:	43"W x 27"D x 7 23/32"H
Blower Type(internal):	600 CFM (4 speed in-line blower - Sold Separately)
Noise (sones):	5.9 Sones
Finish:	Stainless Steel
Controls:	Remote Control
Illumination:	4 LED Lights 2.1 W, 4000K
Filter Type:	(1)Dishwasher-safe aluminum mesh + perimeter aspiration
Installation Type:	Ducted Installation Only
Electrical:	120V - 60Hz, 445 W
In line blower:	ESNBLK26
WARRANTY:**	Two (2) Years Parts & In-Home Labor. Earn an additional One (1) Year of Parts & In-Home Labor by registering on elica.com.

PLUS FEATURES

BLOWER KIT - Elica Blower KITS offers installation flexibility that will accommodate most construction requirements, plus provides options related to ventilation power and sound generation.

REMOTE CONTROL - Elica's ADA compliant Remote Control, provides added convenience to the typical user, as well as, full function access for those with limited mobility.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life is over 20,000 hours, and should last the full life of the hood.

TOP PERFORMANCE - Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. with low noise levels, 1.2 - 1.7 sones at working speed.

PERIMETER ASPIRATION - First developed by Elica, this technology literally turned the market 180 degrees and opened the door to hoods that could be mounted on the wall like picture frames. The technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

CLEAN FILTER ALARM - When activated, your hood will emit a "beep" signal to let you know when is time to clean your filters. For some models, an intermittent light will remain active until cleaning filter action is completed. See instructions manual to activate feature.
